

M-ERA-NET COFUND

Appel à experts évaluateurs " materials research and innovation "

M-ERA.NET Consortium recherche des experts évaluateurs pour son Call 2018 comprenant 6 thématiques recherche dont le topic " Materials for additive manufacturing ".

The M-ERA.NET Consortium is looking for experts to act as evaluators for the Call 2018 Full-Proposal Assessment. The Call 2018 includes the following thematic areas: Multiscale modeling for materials engineering and processing (M3EP) ; **Innovative surfaces, coatings and interfaces** ; High performance composites ; Functional materials ; **New strategies for advanced material-based technologies health applications** ; **Materials for additive manufacturing**. The aim of the Call 2018 is to fund ambitious transnational RTD projects addressing materials research and innovation including materials for low carbon energy technologies and related production technologies. M-ERA.NET aims to strengthen the contribution of materials R&D to energy-related applications where applicable.
