

PAN-EUROPEAN HACKATON/COMMISSION EUROPÉENNE

#EUvsVirus Challenge : Can you hack it?

La Commission européenne, en étroite collaboration avec les États membres de l'UE, organisera un hackathon paneuropéen pour connecter la société civile, les innovateurs, les partenaires et les investisseurs à travers l'Europe afin de développer des solutions innovantes pour les défis liés aux coronavirus.

euvsvirus.org is an Europe-wide online hackathon organized by the most plugged in and nationally connected actors from all over Europe. It builds upon already conducted national hackathons to enable the rapid execution of brilliant solutions.

The #EUvsVirus is a call to action to all citizens around the world regardless of origin and skill to participate in the fight against COVID-19: Demonstrate unity and share your skills for the common good across borders and generations! Let's digitally open EU-borders during this collective challenge!

Benefits

F o l l o w - u p

The European Commission, in close collaboration with all member States and the participating H2020 associated countries, will provide follow up to the best projects coming from the #EUvsVirus hackathon through the new European Innovation Council (EIC) Covid platform. Foundations, investors, health providers (e.g. hospitals) will also be part of the EIC Covid platform.

S o c i a l

Drive a meaningful project and help your family, friends, neighbours, and all EU countries respond to COVID-19 crisis.

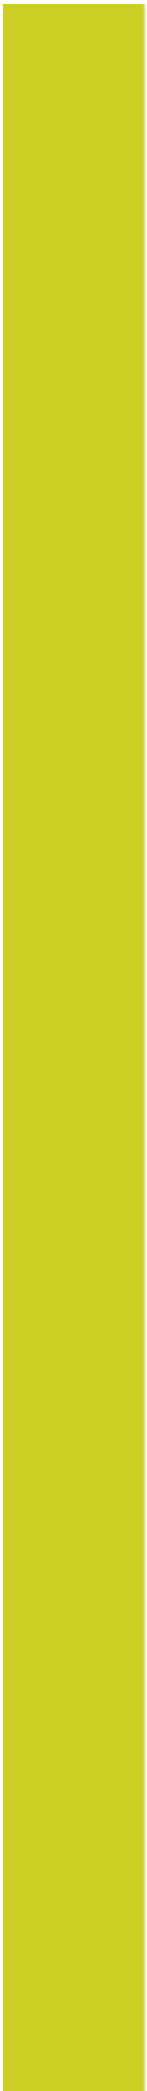

I m p a c t

I n t e r n a t i o n a l

Be part of the solution and get recognized all across the European Commission, the European Parliament and all partner networks.
