BSAC COVID-19 Funding Call

BSAC is launching a COVID-19 funding call to support researchers in better understanding and addressing COVID-19 outbreak.

1. Grants of up to £25,000 to support research projects. Exceptional grants in excess of £25,000 will be considered. The funding scope covers:

- New projects
- Extension of existing research projects
- Expenditure of staff and or consumables

2. Applications are open worldwide to all organisations and will be subject to a rapid peer review process.

3. Research findings will be considered for fast track open access online publication in JAC or JAC-AMR.

How to apply:

Expressions of interest, in the form of a single A-4 summary should be submitted to grants@bsac.org.uk by Friday 17 April.

Successful applicants will be invited to submit a short application by Friday 1 May

Awards will be announced week commencing Monday 18 May

Standard BSAC terms and conditions will apply.

C A L L F O R G R A N T R E F E R E E S

If you are a virologist with research experience (and any time to spare!) we would appreciate your support in peer reviewing expressions of interest and applications received. Please contact Felicity at grants@bsac.org.uk

BSAC has an ongoing commitment to support scientific research through its grants programme in the area of infectious diseases.
